

Appl. No. : 09/386,247  
Filed : August 31, 1999

### **CLAIM AMENDMENTS TO CLAIMS 22 AND 32**

The Applicants amended claims 22 and 32 to correct misspellings. The Applicants respectfully submit that the scope of the foregoing claims has not been changed.

### **RESPONSE TO RESTRICTION REQUIREMENT**

The Applicants elect, without traverse, to proceed with Species 1b, Species 2a, and Species 3a, as instructed in the Office Action. The Applicants agree with the Examiner that Claims 6, 15-17, 27, and 63 are generic. Moreover, the Applicants submit that Claims 7-9, 18-20, 23, 26, 28-29, 32, 35, 64, 67, 70-74, and 79 are also generic to the Examiner-designated specie subject matter.

The Applicants would like to thank the Examiner for the interview extended to the Applicants' counsel of record, John M. Grover. During the interview, the Applicants argued that because the present restriction appears after a two previous non-final Office Actions and one previous restriction requirement, and that many of the claims sought to be restricted were originally filed claims presumably searched during the first two non-final Office Actions, the Examiner should not be able to rely on an argument of an overburdened search. Neither the Examiner nor the Primary Examiner were persuaded by arguments regarding the untimeliness of the restriction nor the non-expanded search.

However, in an effort to move the prosecution of the application forward, the Applicants have elected without traverse, except to point out there are many claims other than those designated by the Examiner that are generic to the Examiner-designated specie subject matter.

### **CONCLUSION**

In view of the forgoing, the present application is believed to be in condition for allowance and the Applicants respectfully requested the same. If further issues remain to
